Portfolio website - Clart

Our portfolio website showcases a range of artworks spanning from clay sculptures to hand-painted pieces and from hand sketches to digital art. As a self-taught artist, my path has been distinct and rewarding. Without the confines of formal art education, I've enjoyed the liberty to delve into diverse mediums, techniques, and styles at my own rhythm. Driven by my fascination with various forms of art, I established my brand, Clart, a fusion of "clay" and "art" that embodies my creative journey.

Our website consists of four main pages. The homepage serves as the gateway to other sections like About, Portfolio showcasing all artworks, and Contact. Each page features a header housing a logo and navigation bar, while the footer includes links to our social media pages.

LOGO meaning :

The Clart logo embraces earthy tones, predominantly beige shades reminiscent of nature, complemented by a deep blue accent to make the brand name stand out. A subtle splash of water in the background symbolizes its significance as a recurring element across all artworks, serving as a unifying motif.
